## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 10, 2005 has been entered.

### ***Allowable Subject Matter***

2. Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose a light-emitting semiconductor device on a metallic substrate comprising a plastic protective body, where the region between the light-emitting power semiconductor device and the optical waveguide is filled, in particular, at least segmentally and with a transparent plastic material that contacts the light exit region of the power semiconductor device. Broom (U.S. Patent No. 5,516,727) discloses a light-emitting power semiconductor device (fig. 4, ref. 40) on a substrate structure (fig. 4, ref. 43) and having a plastic body (fig. 4b, ref. 45), the reference fails to specifically disclose the region between the light-emitting power semiconductor and optical waveguide filled

segmentally with a transparent plastic material that contacts the light exit region since Broom teaches an "air gap" in that region (col. 1, lines 60-67; col. 2, lines 10-14).

Furthermore, as Applicant has highlighted in the Remarks, Broom's invention specifically recognizes problems with such contact. In addition, neither the Tanaka et al. (U.S. Patent 5,218,611) nor the Thillays et al. (U.S. Patent No. 4,387,385) disclose the specifics of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
